

Mindset and Practice Self-Check

Reflection Card for Lesson 3 — The Mindset × Practice Equation

Maher's line in Lesson 3: "A mindset without a practice is a belief that costs nothing. A practice without a mindset becomes a chore. You need both running at the same time."

A FIRST READ ON WHERE I STAND

This is not the formal Snapshot — that comes in Module 2. This is a quick gut-check. Score each one between one and ten.

Side of the Equation	Score (1–10)
Mindset <i>How clearly am I thinking about this stage of life?</i>	
Practice <i>How well do my actual habits reflect that thinking?</i>	

WHICH SIDE IS WEAKER?

Whichever side scored lower is where Module 2 will begin to do the most work for you. Name it. Briefly explain why.
